The puzzle grid contains the following equations and numbers:

- Top-left path: $\square + \square = 4$, $\square + \square = 10$, $\square + \square = 13$
- Top-right path: $5 + \square = \square$, $\square + \square = 13$
- Middle path: $1 + \square = \square$, $\square + \square = 16$
- Bottom-left path: $\square + 4 = \square$, $\square + \square = 11$, $\square + \square = 7$
- Bottom-right path: $3 + \square = 6$, $\square + \square = 16$, $\square + \square = 12$

Each path also includes a vertical column of squares containing the numbers 1, 2, 10, 11, and 12 respectively.
